MoZEUS App for Events

MOZEUS
WORLDWIDE

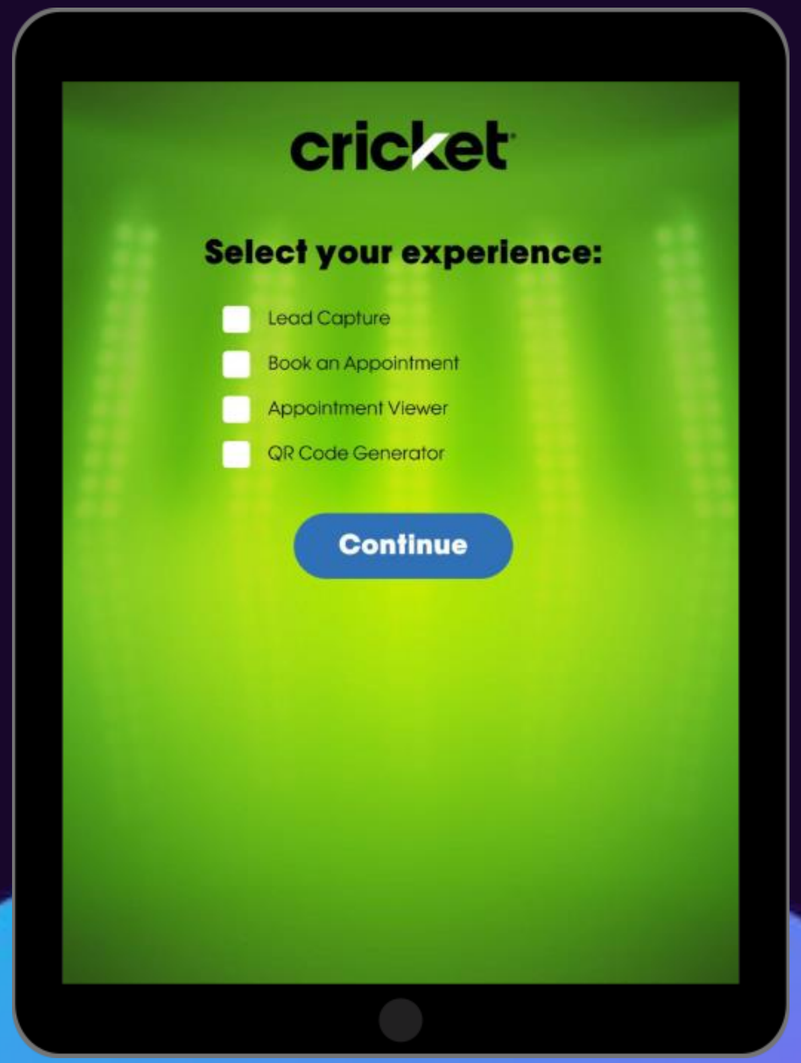
Objective

Today we will discuss utilizing the MoZEUS app during events to engage with customers!

What is MoZEUS?

Events are organized initiatives aimed at boosting sales, increasing foot traffic, and attracting customers to your location. Utilize the MoZEUS app at your events to effectively engage customers, capturing their information to receive exclusive Cricket offers that encourage return visits to your store.

The MoZEUS app serves as a marketing tool during events, capturing leads such as customer email and phone numbers. It facilitates interactions by offering customers opportunities to enter for a chance to win $500 and encourages store visits by allowing them to book appointments through the app.



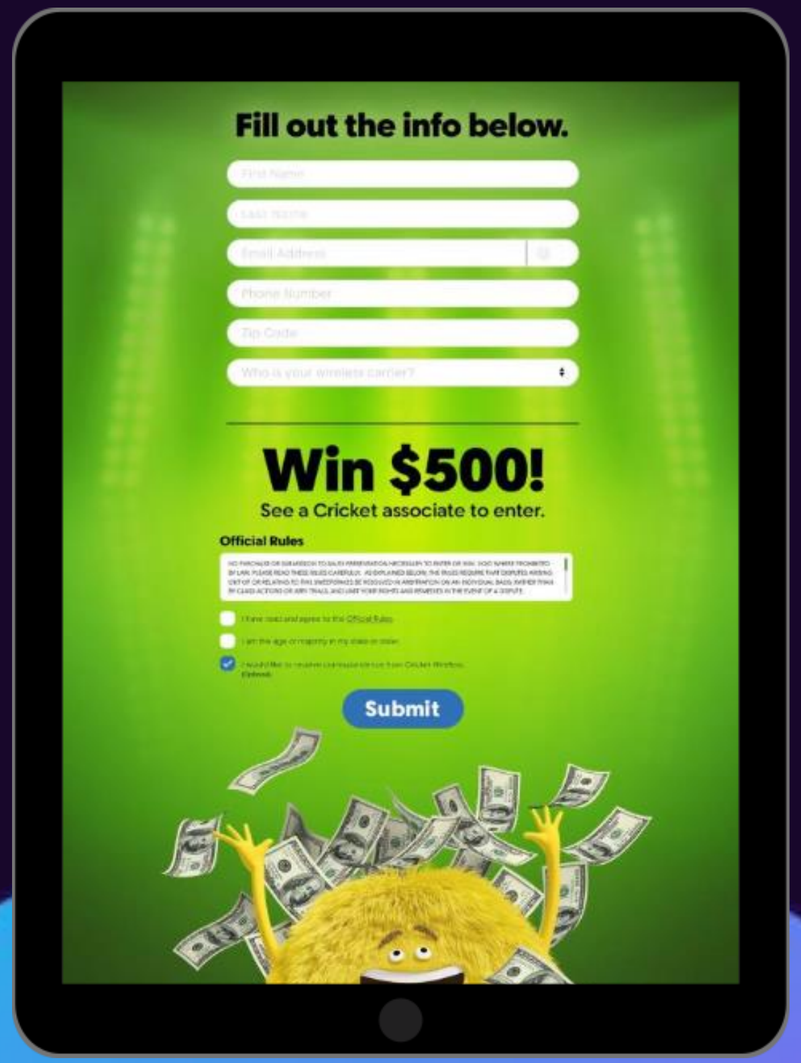
How Does it Work?

When you first log into the MoZEUS app, you will input your Registration Code and PIN (found in Circcket Learning). This will tie your store location with any leads you capture at your event.

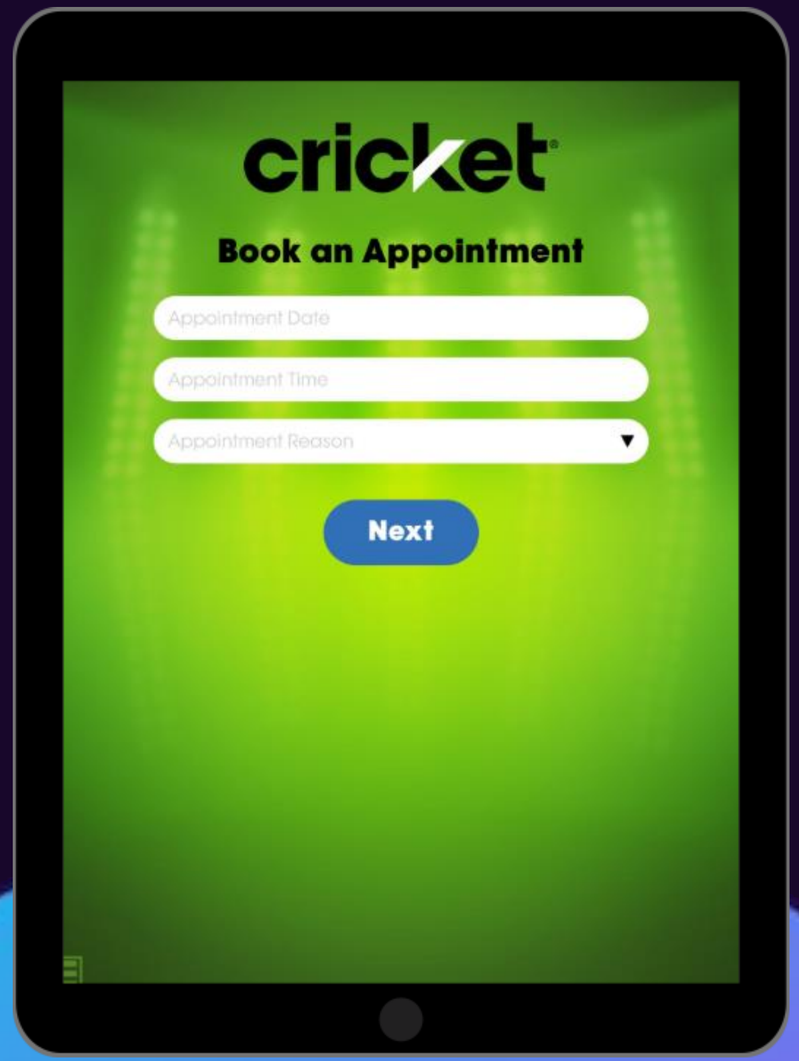
- Once a customer's email is entered into the MoZEUS app, they will receive three Cricket marketing emails that include your store location and address.
- Customers can complete the Lead Capture Survey and book an appointment all in one step!

You can benefit from the **4 functions** from the Home Screen of the MoZEUS app! Let's break them down!

1) Lead Captures

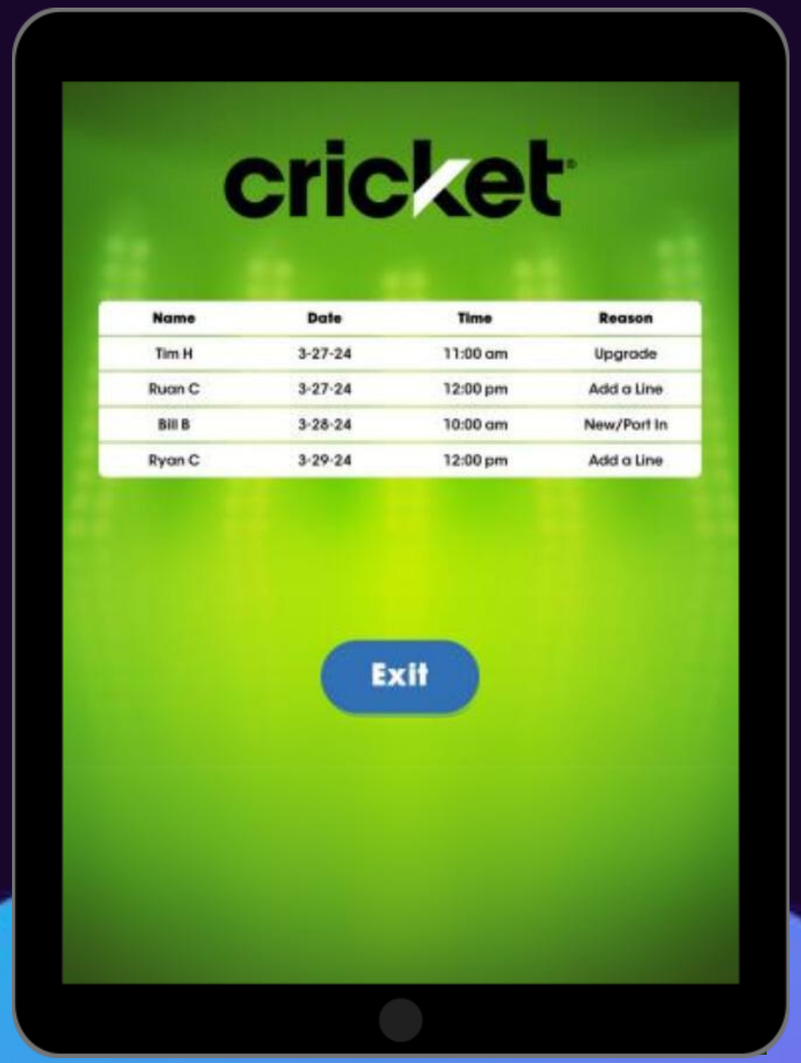


- Lead captures allow you to collect customer information at events and market to them.
- Attract customers by inviting them to sign up for a chance to win $500!
- Potential customers must read and agree to the official rules and acknowledge that they are not a minor when entering.



2) Book an Appointment

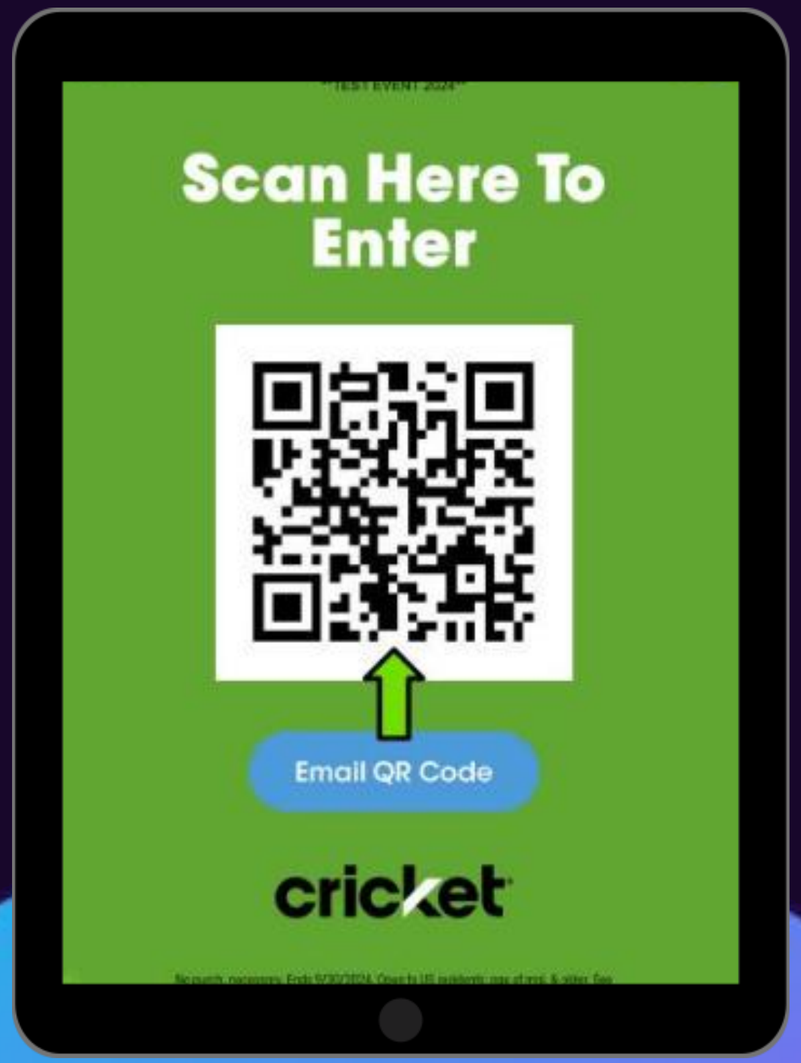
- Gain some new or returning customers to your store by booking an appointment to meet with you!
- Customer will receive a reminder of the appointment via SMS 24 hours before their appointment.



3) Appointment Viewer

The Appointment Viewer offers a convenient way to view scheduled appointments and the purpose of their visit.

- On the home screen, after choosing Appointment Viewer select date range to view upcoming appointments at your store.
- Each store advocate can view scheduled appointments.
- Advocates will know the purpose of the appointment - New line, Upgrade, Add a Line, etc....
- MoZEUS maintains (SPI) Sensitive Personal Information customer compliance during and after events.



4) QR Code Generator

MoZEUS can generate QR codes for customers to scan, allowing them to enter the sweepstake or book an appointment directly on their own devices!

- You can print the QR codes and place them around your event setup, or share them digitally for customers to enter!
- QR codes facilitate faster and broader lead captures because potential customers can use their own devices.

Recommended Best Practices

Pre-Event:

- Set engagement and appointment goals with your team.
- Upload the MoZEUS app to store devices before the event.
- Print flyers and QR code counter cards to display at your event.
- Arrive early at the event to log into the app and set up.

Recommended Best Practices

At the Event:

- Ensure to capture potential customers' information so they can receive emails that include your store's address.
- To maximize engagement, try these tips:
  - Have customers enter their information on the MoZEUS app or scan the QR code to enter the $500 Sweepstakes.
  - Capture customer information before using the physical spin wheel or other gamification at your event.
  - Set an appointment after a good conversation with your potential customers to encourage them to return to your location.
- Remember to bring enough prizes to support the estimated attendance at the event.

Download the MoZEUS app!

Scan the QR codes to download the MoZEUS app onto the iPad or demo phones!

The goal of each event is to drive more sales to your location.

With the MoZEUS app, you will be able to be able to increase the ROI of your event by bringing in more customers.
